Please circle one (01) correct answer.

Question 1: What weather conditions affect the operation of the paper tube winding machine?

- a) Air humidity and temperature
- b) Air humidity only
- c) Temperature only
- d) No effect on operation

Question 2: When the temperature is too low, what can happen to the paper during the operation of the paper tube winding machine?

- a) Paper becomes soft and fragile
- b) The paper becomes stiff and difficult to work with.
- c) Paper does not affect anything
- d) Burnt paper

Question 3: Which of the following factors is important to control to protect the health of workers when operating paper tube winding machines?

- a) Paper dust and air pollution
- b) Worker density
- c) Light level
- d) Type of machine used

Question 4: What can cause overheating during the operation of the paper tube winding machine?

- a) Air humidity is too low
- b) Temperature is too high
- c) The structure of the machine is not suitable.
- d) Working environment is too open

Question 5: When the workspace is cramped and cluttered, what can happen?

- a) Increase productivity
- b) Reduce the risk of accidents
- c) Increased risk of work accidents
- d) No effect on productivity

Question 6: Insufficient lighting in the work environment will lead to?

- a) Increase production efficiency
- b) Difficult to observe and prone to errors
- c) Noise reduction
- d) No impact on work process

Question 7: What problems can noise in the production environment cause for workers?

- a) Enhance concentration
- b) Causes stress and reduces the ability to concentrate
- c) No effect on health
- d) Create effective working conditions

Question 8: How does the technical condition of the paper tube winding machine affect production efficiency?

- a) Machines operate more efficiently when poorly maintained.
- b) The machine does not affect production efficiency
- c) Well maintained machines reduce risks and improve performance
- d) The older the machine, the better it works.

Question 9: What will the lack of occupational safety knowledge lead to?

- a) Increase labor productivity
- b) Increased risk of work accidents and reduced product quality
- c) Reduce maintenance costs
- d) Increase the durability of the equipment

Question 10: What does occupational safety training help workers do?

- a) Improve emergency handling capabilities and reduce accidents
- b) Increased stress at work
- c) Reduced labor productivity
