Please circle one (01) correct answer.

Question 1: Which of the following weather conditions can cause the foam cutter to overload and endanger the operator?

- a) Cold weather
- b) Wet weather
- c) Hot weather
- d) Heavy rain

Question 2: Which of the following factors can increase the risk of electrical short circuit when operating a foam cutter in wet weather conditions?

- a) Blade problem
- b) Humidity dampens electrical components
- c) Chaotic working environment
- d) High temperature causes overload

Question 3: To ensure safety when operating foam cutting machines in cold weather conditions, what should workers do?

- a) Use a machine with larger capacity
- b) Adjust the machine to reduce the cutting speed
- c) Check the electrical components of the machine.
- d) Check the quality of the cutting material to see if it is hard.

Question 4: Which factors in the work environment can reduce performance and increase the risk of accidents when operating a foam cutting machine?

- a) Neat working space
- b) The light is too strong
- c) Reasonable noise adjustment
- d) Clean working floor

Question 5: When a foam cutter shows signs of damage or lack of maintenance, which of the following negative effects can occur?

- a) Reduced labor productivity and damaged products
- b) Increase cutting accuracy and reduce accidents

- c) Increase workability and reduce the risk of failure
- d) Create a safer workspace

Question 6: What does the technical condition of the foam cutter affect during operation?

- a) Machine maintenance time
- b) Standards for materials used
- c) Accuracy and safety of work
- d) Product quality after cutting

Question 7: How do workers' safety knowledge and skills affect the operation of foam cutting machines?

- a) Helps improve product quality without affecting safety
- b) Help workers reduce risks and work more effectively
- c) Does not affect labor productivity but increases the risk of accidents
- d) Is a secondary factor, does not affect operation much

Question 8: How can foam cutting machine operating skills affect the working process?

- a) Workers' fatigue
- b) How employees handle arising situations
- c) Machine error detection capability
- d) How to arrange the workspace

Question 9: What is one of the important safety measures during the operation of a foam cutting machine?

- a) Ensure the cutter is operating at maximum capacity.
- b) Ensure workers have enough rest time
- c) Ensure the work area is clean and tidy
- d) Ensure that personal protective equipment is not used

Question 10: When the foam cutter is not properly maintained, which of the following risks can occur?

- a) Reduce maintenance costs and save time
- b) Increased risk of sudden breakdown and work accidents
- c) Increase machine durability and reduce accidents
- d) Make the machine operate more efficiently

Question 11: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 12: The elements that make up a normal flame are

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both sentences (a and b) are correct.
- e) All three sentences (a, b, c) are correct.

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 14: When suffering from an occupational disease with a 40% reduction in working capacity due to the fault of the employer, what benefits will the employee receive if the employer does not pay unemployment insurance and occupational disease insurance?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All 3 sentences (a, b, c) are correct.
- g) All 05 sentences (a, b, c, d, e) are correct

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) have an obligation.
- b) has 2 obligations.
- c) has 3 obligations.
- d) has 4 obligations.

Question 18: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Employed people, newly recruited people
- b) Apprentices and trainees
- c) Probationers and freelance workers hired by the establishment
- d) Both sentences (a and b) are correct.
- e) Both sentences (a, c) are correct.
- f) All 3 sentences (a, b, c) are correct.

Question 20: While working, workers can omit some of the contents of the safe working process to do the job faster.

- e) True
- f) False
