Please circle one (01) correct answer.

Question 1: Which weather conditions have the strongest influence on the viscosity of the glue during the operation of the double-sided glue roller?

- a) Low temperature
- b) High temperature
- c) High humidity
- d) Low humidity

Question 2: When the humidity in the working environment is too low, what will happen to the glue during rolling?

- a) The glue will become easier to stick
- b) The glue will have reduced adhesion, affecting adhesion.
- c) The glue will melt and not stick to the surface.
- d) The glue will quickly harden and become difficult to use.

Question 3: Which of the following factors can lead to mold formation on materials during the operation of a double-sided adhesive roller?

- a) Temperature is too high
- b) Too high humidity
- c) Humidity is too low
- d) Insufficient lighting

Question 4: What technical problem in the double-sided glue roller can cause unevenness in the glue rolling process?

- a) Failure in the glue pump
- b) Roller wear
- c) Error in the control system
- d) All of the above

Question 5: What happens if the glue roller is not maintained regularly?

- a) The glue rolling speed will be more stable
- b) Performance will decrease and the risk of failure will increase.
- c) The quality of the glue layer will improve

- d) The glue roller will operate for a long time without any problems.

Question 6: Which working environment directly affects the quality of the glue layer during the operation of the double-sided glue roller?

- a) Environment free of dust and high humidity
- b) Environment with stable temperature and humidity
- c) Dusty and liquid environments
- d) Environment with dark light and loud noise

Question 7: Which of the following factors can reduce the ability to observe and detect incidents in the work environment?

- a) Insufficient brightness
- b) Too much noise
- c) Unclean environment
- d) All of the above

Question 8: How can the technical condition of the double-sided adhesive roller affect work safety?

- a) Stable machine operation will reduce the risk of work accidents.
- b) The machine does not require maintenance and is still safe.
- c) Defective parts will reduce product quality without affecting safety.
- d) The technical condition of the machine does not affect work safety.

Question 9: To maintain performance and safety when operating a double-sided adhesive roller, what requirements must the working environment meet?

- a) Adequate light, humidity and stable temperature
- b) No change in temperature and humidity
- c) The machine must be maintained in a dusty environment.
- d) High humidity and low temperature

Question 10: Which skill is an important factor to maintain the performance of the double-sided glue roller and ensure labor safety?

- a) Skills in using protective equipment
- b) Periodic inspection and maintenance skills
- c) Skills to regulate temperature and humidity in the work area
- d) Skills to monitor changes in the work environment

Question 11: When an employee suffers from an occupational disease with a 40% reduction in working capacity due to the employer's fault, what benefits will the employee receive if the employer does not pay insurance for occupational accidents and diseases?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits

Question 12: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 13: Causes of injury when using primitive hand tools

- a) Using damaged tools or tools lacking safety equipment
- b) Using it for purposes other than its intended purpose
- c) Improper operation and use
- d) Sentences (a and b) are correct.
- e) Sentences (a, b, c) are correct.

Question 14: According to the Law on Labor Safety and Hygiene, how many obligations do employees have?

- a) have an obligation.
- b) has 2 obligations.
- c) has 3 obligations.
- d) has 4 obligations.

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Please indicate the correct and complete answer about the conditions for employees to enjoy in-kind compensation.

- a) Doing jobs and occupations in the list of especially arduous, toxic, dangerous jobs and arduous, toxic, dangerous jobs and occupations issued by the Ministry of Labor, War Invalids and Social Affairs

- b) Working in a working environment with at least one of the hazardous or toxic factors that do not meet the hygiene standards permitted by the Ministry of Health or are in direct contact with sources of infectious diseases
- c) Both of the above conditions

Question 17: When an employee has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of Minimum Wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 18: While working, workers can omit some of the contents of the safe working process to do the job faster.

- a) True
- b) False

Question 19: The elements that make up a normal flame are

- a) Oxygen
- b) Combustible substances
- c) Heat source
- d) Both sentences (a and b) are correct
- e) All three sentences (a, b, c) are correct.

Question 20: Employees who work continuously for 8 or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes
