

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: During welding and electrical circuit connection, what accidents can occur if protective equipment is not used properly?

- a) Thermal burns due to contact with hot welding equipment
- b) Mechanical accidents due to collision with equipment
- c) Electric shock when in contact with an open circuit
- d) Both (a and c) are correct

Question 2: What is the main cause of occupational accidents during product quality inspection?

- a) Lack of personal protective equipment
- b) Failure of test equipment due to lack of maintenance
- c) Working environment with insufficient light
- d) Both (b and c) are correct

Question 3: When checking product quality, why is it necessary to use insulating gloves?

- a) To protect hands from electric sparks
- b) To protect hands from high temperatures from the device
- c) To prevent exposure to chemicals
- d) To protect hands from injury due to sharp components

Question 4: What does not include measures to prevent occupational accidents during welding and electrical circuit connection?

- a) Use heat-resistant gloves and goggles
- b) Ensure the work area is well-ventilated and clean
- c) Train workers on safety procedures
- d) Failure to periodically inspect welding equipment

Question 5: Which of the following is a contributing factor to occupational accidents during welding and joining?

- a) Lack of personal protective equipment such as gloves and goggles
- b) Welding equipment is regularly maintained
- c) Workers always comply with work procedures
- d) The working environment is always clean and airy

Question 6: In case of electric shock during quality check, what is the first action to take?

- a) Provide cardiopulmonary resuscitation
- b) Disconnect the power immediately
- c) Wash the burn under cold water
- d) Notify medical staff

Question 7: To prevent occupational accidents during quality control, who needs to periodically maintain the testing equipment?

- a) Quality control workers
- b) Qualified maintenance personnel
- c) Product design engineers
- d) Supervisors in the production line

Question 8: When a work accident occurs during welding and connection, what training do workers need to handle emergency situations effectively?

- a) First aid and emergency response procedures
- b) Product quality control process
- c) Standard working process
- d) Skills in using welding equipment

Question 9: What requirements must the working environment during welding and electrical circuit connection meet to minimize accidents?

- a) The work area must be well ventilated
- b) The work area must be adequately lit
- c) Both (a and b) are correct
- d) The working area must have an air conditioning system

Question 10: Which safety measures are not necessary when working in a product quality testing environment with electrical equipment?

- a) Wear insulating gloves
- b) Use eye protection
- c) Ensure the working environment has enough light
- d) No need to periodically check the equipment

Question 11: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

Question 12: Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

Question 13: The elements that make up a normal flame are?

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct.
- e) All three (a, b, c) are correct.

Question 14: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Please indicate the correct and complete answer about the conditions for employees to enjoy in-kind compensation?

- a) Doing jobs and occupations in the list of especially arduous, toxic, dangerous jobs and arduous, toxic, dangerous jobs and occupations issued by the Ministry of Labor - Invalids and Social Affairs
- b) Working in a working environment with at least one of the hazardous or toxic factors that do not meet the hygiene standards permitted by the Ministry of Health or are in direct contact with sources of infectious diseases
- c) Both of the above

Question 17: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 18: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Employed people, newly recruited people
- b) Apprentices and trainees
- c) Probationers and freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

Question 20: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False
