

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

**Please circle one (01) correct answer.**

**Question 1:** In the process of mechanically assembling coffee machines, the main cause of work accidents is often related to which factor?

- a) Unclean working environment
- b) Lack of tools and protective equipment
- c) Lack of experience or inadequate training
- d) Workers work too fast

**Question 2:** When working in an electronics assembly environment, what is one of the main causes of work accidents?

- a) Lack of understanding of mechanical components
- b) Errors in mechanical assembly process
- c) Failure of electronic equipment or tools
- d) Lack of means of transporting components

**Question 3:** To minimize occupational accidents in electronics assembly, what is the most important factor?

- a) Ensure the working environment is always bright
- b) Workers are properly trained in safety procedures and use of protective equipment
- c) Tools must be maintained at least monthly.
- d) Limit the use of small electronic components

**Question 4:** During mechanical assembly, in which situation can the risk of electric shock occur?

- a) When workers do not wear protective gloves
- b) When the electrical system is not connected properly
- c) When using poor quality tools
- d) When workers work in poorly lit areas

**Question 5:** Which of the following factors is a prerequisite to ensure safety in electronic assembly?

- a) Workers must use personal protective equipment such as insulating gloves and eye protection.
- b) Workers must work in confined spaces.
- c) Only use components with clear origin
- d) Workers must work without any supervision.

**Question 6:** In the process of handling occupational accidents when assembling electronics, what is the first step when someone is electrocuted?

- a) Provide first aid immediately
- b) Take the victim to the hospital immediately
- c) Disconnect the power supply to stop the risk of electric shock.
- d) Provide water to the victim

**Question 7:** In the working environment of mechanical assembly workers, what is one measure to prevent accidents due to slipping?

- a) Arrange tools and components randomly
- b) Ensure the work area is always clean and tidy
- c) Provide workers with anti-slip safety shoes
- d) Ensure the workspace has enough natural light

**Question 8:** During the electronics assembly process, when should quality control procedures be performed to minimize risks?

- a) After completing the assembly of all components
- b) Before starting to assemble the components
- c) Whenever there is a change in the work process
- d) Before completing the product and putting it into mass production

**Question 9:** When a work accident occurs during mechanical assembly, what is the priority in handling the emergency situation?

- a) Create a detailed accident report immediately
- b) Provide first aid and alert medical departments
- c) Stop work and check all tools used.
- d) Find the cause of the accident immediately

**Question 10:** During the mechanical assembly of a coffee machine, which of the following is an important factor to avoid accidents involving sharp tools?

- a) Always use protective gloves when handling sharp components.
- b) Use large tools instead of small tools
- c) Make sure the work area has enough light.
- d) Keep tools within easy reach and out of reach of children.

**Question 11:** According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours

- b) 24 hours
- c) 30 hours
- d) 48 hours

**Question 12:** Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

**Question 13:** The elements that make up a normal flame are?

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct.
- e) All three (a, b, c) are correct.

**Question 14:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

**Question 15:** Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

**Question 16:** Please indicate the correct and complete answer about the conditions for employees to enjoy in-kind compensation?

- a) Doing jobs and occupations in the list of especially arduous, toxic, dangerous jobs and arduous, toxic, dangerous jobs and occupations issued by the Ministry of Labor - Invalids and Social Affairs
- b) Working in a working environment with at least one of the hazardous or toxic factors that do not meet the hygiene standards permitted by the Ministry of Health or are in direct contact with sources of infectious diseases
- c) Both of the above

**Question 17:** What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

**Question 18:** According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 19:** Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Employed people, newly recruited people
- b) Apprentices and trainees
- c) Probationers and freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

**Question 20:** Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False
