

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: What occupational accidents can occur during the drying process of raw materials due to exposure to high temperatures from the drying equipment?

- a) Burns from contact with hot surfaces
- b) Asphyxiation due to lack of oxygen in the drying environment
- c) Cut your hand when handling raw materials
- d) Slip and fall due to wet floor

Question 2: What is the main cause of occupational accidents in the crushing and grinding process?

- a) Workers do not comply with work procedures
- b) Technical problems such as broken moving parts of the machine
- c) Unclean working environment
- d) Workers do not use protective gloves

Question 3: Which of the following measures helps prevent accidents when working with vacuum drying systems?

- a) Periodic inspection for gas leaks
- b) Ensure workers work in low temperature environments
- c) Install cooling systems to reduce temperature
- d) Reduce air pressure in the work area

Question 4: During the grinding and milling process, what can cause serious accidents if not noticed?

- a) Lack of training in safe work procedures
- b) Leave the work area floor wet
- c) Inadequate equipment maintenance
- d) All of the above

Question 5: When a work accident occurs due to contact with a crusher or grinder, what is the first measure?

- a) Call an ambulance and report to the manager
- b) Stop the machine and check the worker's condition
- c) Provide first aid and take the worker to the hospital
- d) Notify other workers of the incident

Question 6: What can cause occupational accidents during the process of drying raw materials by vacuum drying?

- a) Problems with the vacuum system, such as air leaks
- b) Poorly maintained drying equipment
- c) Workers do not use personal protective equipment
- d) All of the above

Question 7: When workers do not comply with safety procedures, what occupational accident risks can occur during the crushing and grinding process?

- a) Risks due to moving parts of machinery
- b) Injuries due to failure to use personal protective equipment
- c) Suffocation due to fine dust during grinding
- d) Both (a and b) are correct

Question 8: To minimize the risk of accidents during the drying process of raw materials, which of the following measures is the most important?

- a) Ensure workers are fully equipped with personal protective equipment
- b) Maintain a clean and tidy working environment
- c) Train workers on safe working procedures
- d) All of the above

Question 9: What occupational accidents can occur due to workers not using personal protective equipment when working with crushers?

- a) Cut your hand when it gets caught in the moving parts of the machine
- b) Fractures due to falls
- c) Burns due to exposure to heat from the device
- d) Hearing loss due to machine noise

Question 10: Who should perform the maintenance procedure of crushing and grinding equipment to ensure safety?

- a) Machine operators
- b) Well-trained technicians
- c) Work supervisor
- d) Equipment manufacturers

Question 11: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 12: The elements that make up a normal flame are

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct
- e) All three (a, b, c) are correct

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract

Question 14: When suffering from an occupational disease with a 40% reduction in working capacity due to the fault of the employer, what benefits will the employee receive if the employer does not pay unemployment insurance and occupational disease insurance?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, and c) are correct
- g) All five (a, b, c, d, and e) are correct

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 18: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current employees, newly recruited employees
- b) Apprentices and trainees
- c) Probationary employees, freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

Question 20: While working, workers can omit some of the contents of the safe working process to do the job faster.

- e) True
- f) False
