

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: Which of the following surface treatment steps is not related to protecting metals from corrosion?

- a) Coating
- b) Crom plating
- c) Anti-rust
- d) Sanding

Question 2: Which of the following occupational accidents can occur when workers do not use the correct personal protective equipment during surface treatment?

- a) Chemical burns
- b) Food poisoning
- c) Hearing loss
- d) Injuries caused by metal dust

Question 3: What is the purpose of chromium plating in surface treatment?

- a) Increased durability and corrosion resistance
- b) Create a protective layer of color for the surface
- c) Increased heat resistance
- d) Improve the elasticity of metals

Question 4: Which of the following causes can cause occupational accidents during the surface treatment of hand-held metal tools?

- a) Use full protective equipment
- b) Failure to inspect and maintain surface treatment equipment
- c) Strictly follow the working process
- d) Use correct chemical storage procedures

Question 5: Which of the following measures is important to reduce the risk of occupational accidents when handling the surface of hand-held metal tools?

- a) Ensure surface treatment equipment is regularly inspected and maintained
- b) Ensure workers do not need to use personal protective equipment
- c) Ensure the work area does not need to be ventilated
- d) No need to take fire prevention and fighting measures

Question 6: Which of the following is an essential factor in preventing occupational accidents when handling surfaces?

- a) Ensure that flammable liquids are cleaned up promptly
- b) No need to check surface treatment equipment
- c) Ensure that workers do not need training in safe working procedures
- d) Increased use of chemicals of unknown origin

Question 7: Which of the following procedures is necessary when a work accident involving chemicals occurs during the surface treatment process?

- a) Remove workers from contaminated areas and wash chemicals off their bodies
- b) Let workers continue working so as not to affect progress
- c) No need to report incidents to management
- d) No need to use fire fighting equipment if there is a fire or explosion

Question 8: When treating surfaces, compliance with regulations on safe storage and use of chemicals is to avoid what?

- a) Avoid traffic accidents
- b) Avoid chemical leaks and chemical accidents
- c) Avoid using tools improperly
- d) Avoid wasting raw materials

Question 9: What accident risks can arise when the work area does not have an effective ventilation system during surface treatment?

- a) Traffic accidents
- b) Inhalation of toxic vapors and metal dust
- c) Waste of energy
- d) Slip and fall due to spilled water

Question 10: To avoid accidents in the surface treatment process, what training should workers receive?

- a) How to work effectively without protection
- b) Handling procedures and safety measures related to chemicals and equipment
- c) How to manage product quality without using protective equipment
- d) Managing work time instead of safety procedures

Question 11: What is the purpose of occupational safety and hygiene?

- a) Ensure safety for workers, minimize or prevent accidents, injuries or deaths at work.
- b) Ensure that workers are healthy and do not suffer from occupational diseases or other illnesses caused by poor working conditions.
- c) Maintain, restore health and prolong working time for workers.

- d) All three (a, b, and c) are correct

Question 12: According to the Law on Labor Safety and Hygiene, how many obligations do employees have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of Minimum Wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 14: Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

Question 15: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 16: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 17: While working, workers can omit some of the contents of the safe working process to do the job faster.

- a) True

b) False

Question 18: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 19: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (Group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

Question 20: When an employee suffers from an occupational disease with a 40% reduction in working capacity due to the employer's fault, what benefits will the employee receive if the employer does not pay insurance for occupational accidents and diseases?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits
