

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

**Question 1:** What parts should workers check before starting to assemble the motor and circuit to ensure the machine operates efficiently?

- a) Motor, circuit board, connecting wire, accessories
- b) Engine, handle, case
- c) Mechanical components, connecting wires, tools
- d) Controller, circuit, accessories

**Question 2:** What is the main cause of occupational accidents when assembling motors and electrical circuits?

- a) Using inappropriate tools
- b) Lack of safety training and awareness
- c) Working conditions do not ensure lighting
- d) All of the above

**Question 3:** During the process of attaching mechanical parts to a machine, what accidents can occur due to improper use of tools?

- a) Electric shock
- b) Cut or stabbed by a sharp tool
- c) Musculoskeletal injuries due to incorrect working posture
- d) Accidents due to fatigue

**Question 4:** When assembling motors and electrical circuits, which working conditions can increase the risk of accidents?

- a) Work in open spaces
- b) Adequate lighting conditions
- c) Narrow and poorly lit working space
- d) Working outdoors

**Question 5:** To minimize the risk of accidents when installing mechanical parts, which measure is the most important?

- a) Improve the working environment
- b) Use sharper tools

- c) Training employees on safe assembly techniques
- d) Work overtime to complete the job

**Question 6:** What does the motor and circuit assembly process require workers to do before handling electronic components?

- a) Ensure sharp tools have been replaced
- b) Turn off the power and check the device status
- c) Ensure a clean working environment
- d) Increase concentration and work quickly

**Question 7:** In case of mild electric shock during motor assembly, what is the first step a worker should take?

- a) Assess the victim's condition and perform first aid immediately.
- b) Immediately turn off the power and call medical services.
- c) Use your hands to pull the victim away from the power source.
- d) Use insulating equipment to separate the victim from the power source.

**Question 8:** When installing mechanical parts, what can happen if workers work in a confined space without enough light?

- a) Workers can see details more clearly
- b) Unable to perform assembly steps correctly
- c) Workers will work faster and more efficiently.
- d) No risk of accident

**Question 9:** Which measures help reduce the risk of accidents due to fatigue during engine and circuit assembly?

- a) Ensure workers work continuously without rest
- b) Provide a low-light working environment
- c) Encourage workers to take regular breaks
- d) Reduce working hours during the day

**Question 10:** In case of a serious work accident, what should workers do immediately?

- a) Continue work and notify later
- b) Stop work, assess the victim's condition and call an ambulance.
- c) Find out the cause of the accident before taking any action.
- d) Perform first aid without calling an ambulance.

**Question 11:** What is the purpose of occupational safety and hygiene?

- a) Ensure safety for workers, minimize or prevent accidents, injuries or deaths at work.
- b) Ensure that workers are healthy and do not suffer from occupational diseases or other illnesses caused by poor working conditions.
- c) Maintain, restore health and prolong working time for workers.
- d) All three (a, b, and c) are correct

**Question 12:** According to the Law on Labor Safety and Hygiene, how many obligations do employees have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 13:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of Minimum Wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

**Question 14:** Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

**Question 15:** Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

**Question 16:** What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

**Question 17:** While working, workers can omit some of the contents of the safe working process to do the job faster.

- a) True
- b) False

**Question 18:** Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

**Question 19:** According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (Group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

**Question 20:** When an employee suffers from an occupational disease with a 40% reduction in working capacity due to the employer's fault, what benefits will the employee receive if the employer does not pay insurance for occupational accidents and diseases?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits
