

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

**Please circle one (01) correct answer.**

**Question 1:** Which of the following headphone quality testing steps involves evaluating the strength of components such as the cable and headphone housing?

- a) Sound check
- b) Durability test
- c) Performance testing
- d) Check the stability of the circuit

**Question 2:** Which of the following common causes can lead to work accidents during the welding and electronic connection of headphones?

- a) Inadequate use of personal protective equipment
- b) Working environment is too airy
- c) Improper equipment testing
- d) Inadequate equipment maintenance

**Question 3:** During the process of testing the quality of headphones, what occupational accidents can occur related to electronic testing equipment?

- a) Burns due to contact with welding materials
- b) Electric shock accident
- c) Hand cuts due to use of measuring tools
- d) Poisoning due to exposure to flux

**Question 4:** Which of the following steps are included in checking the sound quality of headphones?

- a) Check the durability of the headphone case
- b) Evaluate sound clarity and sound insulation
- c) Check electronic components
- d) Check the stability of the audio controls

**Question 5:** What are the measures to prevent accidents when working with flux during soldering and electronic connections?

- a) Ensure there is no ventilation in the work area.
- b) Wear a mask and eye protection when using flux.
- c) Perform work at higher temperatures to increase efficiency
- d) Use chemicals to remove welding dust

**Question 6:** What is the main cause of occupational accidents during headphone quality testing?

- a) Lack of training on testing procedures
- b) Lack of ventilation in the work area
- c) Inadequate use of protective equipment
- d) Lack of regular equipment maintenance

**Question 7:** What is the most important factor to ensure safety during electronic soldering and connection?

- a) Use high-power welding equipment
- b) Ensure workers are fully trained in technical and safety
- c) Working in an environment without electricity
- d) Ensure the work area is free of dust and smoke.

**Question 8:** To prevent work accidents during the headphone quality inspection process, what protective equipment should workers use?

- a) Anti-static gloves
- b) Gas mask
- c) Eye protection and earplugs
- d) Chemical protective clothing

**Question 9:** When an occupational accident occurs during the headphone quality inspection process, what should the worker do first if there is an electric shock?

- a) Cut off the power immediately
- b) Perform cardiopulmonary resuscitation (CPR)
- c) Take the victim to the hospital
- d) Wake up the victim

**Question 10:** What factors are required in the working environment during welding and electronic connection to ensure safety?

- a) Enough light and spacious space
- b) No ventilation system to prevent heat loss
- c) Has a heating system to increase work efficiency
- d) Ensure that no one is working near the welding area.

**Question 11:** While working, workers can omit some of the contents of the safe working process to perform the job faster.

- a) True
- b) False

**Question 12:** Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, c) are correct
- g) All five (a, b, c, d, e) are correct

**Question 13:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

**Question 14:** According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

**Question 15:** Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current workers and newly recruited employees
- b) Apprentices and trainees
- c) Probationary workers and freelance workers hired by the facility
- d) Both (a) and (b) are correct
- e) Both (a) and (c) are correct
- f) All three (a, b, and c) are correct

**Question 16:** What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

**Question 17:** According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 18:** Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

**Question 19:** Causes of injury when using hand-held primitive tools

- a) Using damaged tools or tools lacking safety equipment
- b) Using it for purposes other than its intended purpose
- c) Improper operation and use
- d) Both (a) and (b) are correct
- e) All three (a, b, c) are correct

**Question 20:** Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above
