

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

**Please circle one (01) correct answer.**

**Question 1:** In the process of assembling the parts of an infrared cooker, what is the most important requirement when attaching the heating bar to the frame?

- a) Make sure the heating elements are securely fastened and properly connected to the power source.
- b) Make sure the heating element has the correct operating temperature.
- c) Make sure the heating element is made of heat-resistant material.
- d) Ensure there are no obstructions in the installation area.

**Question 2:** During the inspection and testing of infrared cookers, what is the mandatory requirement to ensure worker safety?

- a) Use fire-resistant gloves and goggles.
- b) Check the durability of each part.
- c) Ensure electrical isolation and check for proper electrical connections.
- d) Make sure to test only one function at a time.

**Question 3:** What is the main cause of occupational accidents during the inspection and testing of infrared cookers?

- a) Lack of training on safety measures.
- b) Inadequate protective equipment.
- c) Workers do not comply with safety procedures.
- d) Working environment conditions are not guaranteed.

**Question 4:** When can work accidents due to electric shock during the assembly of infrared cookers occur?

- a) When metal parts are not properly protected.
- b) When the electrical isolation procedure is not followed correctly.
- c) When workers do not use protective equipment.
- d) When electrical equipment has manufacturing defects.

**Question 5:** When performing electrical safety inspections, what measures help reduce the risk of electric shock?

- a) Use low voltage only.

- b) Ensure all electrical connections are made properly and check for electrical isolation.
- c) Ensure workers have adequate working space.
- d) No need to use protective equipment when working with electricity.

**Question 6:** To prevent occupational accidents during assembly, what training do workers need to receive?

- a) Only about basic assembly processes.
- b) Safety measures when working with electrical equipment and testing tools.
- c) Fast working methods to save time.
- d) Only on equipment maintenance techniques.

**Question 7:** In case of an electrical work accident during inspection and testing, what is the first step to take?

- a) Report the incident immediately to your supervisor.
- b) Stop work and turn off the power.
- c) Perform basic first aid on the victim.
- d) Conduct an investigation into the cause of the incident.

**Question 8:** Working environment conditions can affect the risk of accidents during assembly. Which of the following is an important factor in reducing accidents?

- a) Ensure the assembly area is clean and organized.
- b) Use personal protective equipment only in case of an accident.
- c) No need for strong lighting in the work area.
- d) Work quickly without checking tools.

**Question 9:** What measures are necessary to prevent accidents while testing the durability of infrared cookers?

- a) Check the parts quickly.
- b) Ensure workers always wear protective gear when inspecting components.
- c) Use new test equipment that requires no maintenance.
- d) There is no need to confirm the condition of the part before inspection.

**Question 10:** When an occupational accident occurs during inspection and testing, why is it important to record details of the incident?

- a) To determine the cause and take preventive measures in the future.
- b) To avoid intervention by authorities.
- c) To serve as evidence for the company in case of complaints.
- d) To avoid personal liability.

**Question 11:** What is the purpose of occupational safety and hygiene?

- a) Ensure safety for workers, minimize or prevent accidents, injuries or deaths at work.
- b) Ensure that workers are healthy and do not suffer from occupational diseases or other illnesses caused by poor working conditions.
- c) Maintain, restore health and prolong working time for workers.
- d) All three (a, b, and c) are correct

**Question 12:** According to the Law on Labor Safety and Hygiene, how many obligations do employees have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 13:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of Minimum Wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

**Question 14:** Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

**Question 15:** Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

**Question 16:** What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

**Question 17:** While working, workers can omit some of the contents of the safe working process to do the job faster.

- a) True
- b) False

**Question 18:** Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

**Question 19:** According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (Group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

**Question 20:** When an employee suffers from an occupational disease with a 40% reduction in working capacity due to the employer's fault, what benefits will the employee receive if the employer does not pay insurance for occupational accidents and diseases?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits
