

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: What tools should workers using in the electronic component assembly process use to ensure that electronic connections are made correctly?

- a) Drilling machine
- b) Electronic pliers
- c) Hammer
- d) Box cutter

Question 2: Which of the following occupational accidents is not a common hazard when assembling electronic components?

- a) Burns from soldering iron
- b) Cuts or scratches when using sharp tools
- c) Electric shock when working on an electrical circuit that has not been disconnected
- d) Slip and fall due to lack of light

Question 3: To minimize accidents when checking product quality, what measures should workers take?

- a) Ensure adequate lighting in the work area
- b) Use personal protective equipment such as cut-resistant gloves and safety glasses
- c) Carefully check the measuring equipment
- d) All of the above

Question 4: Which of the following is not a factor causing occupational accidents when assembling electronic components?

- a) Failure to comply with safety procedures when working with a soldering iron
- b) Working environment with poor lighting or narrow space
- c) Carefulness in operation and precision when soldering components
- d) Errors during post-assembly quality control

Question 5: In the process of testing product quality and performance, which factor is most important to ensure labor safety?

- a) Check electronic components after product completion
- b) Ensure that electronic equipment and testing tools are regularly maintained
- c) Let workers freely perform inspections without specific procedures
- d) Increased work in confined spaces

Question 6: The quality control process in iron production includes checking which factors?

- a) Mechanical strength, safety features and operating performance
- b) Color and shape of the iron
- c) Production costs and materials
- d) Dustproof and shockproof

Question 7: What are the measures to prevent occupational accidents during quality and performance testing?

- a) Workers do not need to report safety issues unless there is an incident.
- b) Make sure electronic devices are powered off before operating.
- c) Working in an environment without light
- d) Use personal protective equipment such as cut-resistant gloves and safety glasses

Question 8: When an occupational accident involving electric shock occurs, what is the first step a worker should take?

- a) Perform first aid immediately
- b) Disconnect the power immediately
- c) Conduct quality tests of the equipment
- d) Self-report incidents to the occupational safety department

Question 9: During product quality testing, what is the prerequisite to ensure accuracy and safety?

- a) Workers need to work in tight spaces to increase productivity.
- b) Workers need to have analytical skills and work carefully.
- c) Workers can work without using protective equipment.
- d) Testing equipment may be subject to routine maintenance.

Question 10: What is one of the causes of occupational accidents when assembling electronic components?

- a) Lack of care and negligence in soldering components
- b) The working environment is too large and airy
- c) Excessive use of protective equipment
- d) Ensure that testing procedures are performed carefully

Question 11: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours

- d) 48 hours

Question 12: Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

Question 13: The elements that make up a normal flame are?

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct.
- e) All three (a, b, c) are correct.

Question 14: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Please indicate the correct and complete answer about the conditions for employees to enjoy in-kind compensation?

- a) Doing jobs and occupations in the list of especially arduous, toxic, dangerous jobs and arduous, toxic, dangerous jobs and occupations issued by the Ministry of Labor - Invalids and Social Affairs
- b) Working in a working environment with at least one of the hazardous or toxic factors that do not meet the hygiene standards permitted by the Ministry of Health or are in direct contact with sources of infectious diseases
- c) Both of the above

Question 17: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 18: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Employed people, newly recruited people
- b) Apprentices and trainees
- c) Probationers and freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

Question 20: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False
