

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: What weather conditions can reduce the performance and life of the mechanical parts of a concrete pile driver?

- a) High temperature
- b) Low temperature
- c) Strong winds
- d) Heavy rain

Question 2: During the maintenance of concrete pile presses, what effect does changing hydraulic oil have on labor safety?

- a) Helps improve machine performance
- b) Prevent oil leaks and reduce the risk of fire
- c) Increase hydraulic pressure
- d) Minimize friction between machine parts

Question 3: How does the working environment affect the operation of concrete pile drivers?

- a) No significant impact on operating performance
- b) A disorganized work environment reduces efficiency and increases the risk of accidents
- c) A good working environment only affects the comfort of workers
- d) There is no correlation between working environment and machine efficiency

Question 4: What conditions can increase the risk of the concrete pile driver tipping over or slipping during operation?

- a) Strong winds
- b) Unstable ground
- c) Poor lighting
- d) Hot weather

Question 5: Which skill is the most important factor to help workers operate concrete pile drivers safely?

- a) Technical problem detection skills
- b) Skills in using machine repair tools
- c) Ability to operate the machine accurately and flexibly
- d) Skills in organizing work and assigning tasks

Question 6: What dangers can occur if the hydraulic system of the concrete pile driver fails?

- a) Increased pressure causes explosion
- b) The machine is working too fast
- c) Concrete piles slipped out of position
- d) Piling cannot be done

Question 7: Which part of the concrete pile driver does regular maintenance help minimize incidents and accidents?

- a) Electrical and control systems
- b) Anti-shock device of the machine
- c) Machine frame structure
- d) The machine's exhaust system

Question 8: In case of an accident while operating a concrete pile driver, which step is the most important to minimize damage?

- a) Stop the machine immediately and assess the situation
- b) Contact the customer to notify them of the problem
- c) Find a way to repair the machine quickly
- d) Continue operation to reduce downtime

Question 9: What effects can a high humidity working environment have on a concrete pile driver?

- a) Increase the efficiency of the electrical system
- b) Reduces the efficiency of electrical and mechanical systems
- c) Minimize damage to mechanical parts
- d) Improve lubrication of machine parts

Question 10: To ensure safety when operating a concrete pile driver, which of the following is a mandatory requirement?

- a) Use personal protective equipment such as helmets, gloves, and goggles
- b) Carry out pile driving machine inspection only when the machine shows signs of damage
- c) Maintain machine operating speed at maximum level
- d) Just monitor the machine performance without worrying about the working environment

Question 11: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 12: The elements that make up a normal flame are

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct
- e) All three (a, b, c) are correct

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract

Question 14: When suffering from an occupational disease with a 40% reduction in working capacity due to the fault of the employer, what benefits will the employee receive if the employer does not pay unemployment insurance and occupational disease insurance?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, and c) are correct
- g) All five (a, b, c, d, and e) are correct

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 18: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current employees, newly recruited employees
- b) Apprentices and trainees
- c) Probationary employees, freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

Question 20: While working, workers can omit some of the contents of the safe working process to do the job faster.

- e) True
- f) False
