

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: What does mechanical assembly work in the printer manufacturing industry require from workers?

- a) Automation skills
- b) Accuracy and understanding of mechanical design
- c) Ability to work effectively in a team
- d) Computer programming skills

Question 2: What is the main cause of accidents when assembling moving parts such as shafts and gears during the printing machine manufacturing process?

- a) Lack of precision in the connection process
- b) Improper use of protective equipment
- c) Improper use of protective equipment
- d) Not checking carefully before and after assembly

Question 3: To prevent work accidents during electronic assembly, what should workers do during the circuit assembly process?

- a) Ensure adequate lighting and spacious working space
- b) Wear full personal protective equipment and check components carefully.
- c) Use only power tools to ensure work efficiency.
- d) Limit the use of protective devices so as not to reduce flexibility.

Question 4: What are the working procedures in mechanical printer assembly required to ensure labor safety?

- a) Use flexible cutting tools to minimize working time
- b) Strictly follow procedures and continuously check components
- c) Use minimal protective equipment to reduce costs
- d) Ensure that workers can adjust tools themselves when necessary

Question 5: What does connecting wires in electronic assembly require from the worker?

- a) Must be quick to save time
- b) Carefully check each connection and use standard wire.
- c) Use only available electrical wiring without checking.
- d) Check the joints only after the system has been completely assembled.

Question 6: What is the main cause of occupational accidents when assembling moving parts in printers?

- a) Incorrect assembly of parts due to lack of experience
- b) Poor inspection of components before assembly
- c) Use of inappropriate protective equipment
- d) The machinery system is not regularly maintained.

Question 7: What measures help prevent occupational accidents when assembling electronic parts such as printed circuit boards and electronic components?

- a) Use specialized mechanical tools for every stage
- b) Ensure that every operation is performed carefully and without negligence.
- c) Use bare hands when working with electronic components
- d) Leave the circuit in operating condition for continuity testing

Question 8: When a work accident occurs during mechanical assembly, what is the first step to take?

- a) Perform first aid immediately.
- b) Turn off the power and stop all activities.
- c) Take the victim to the nearest medical room.
- d) Call emergency services before taking any other measures.

Question 9: To minimize the risk of accidents when assembling electronics, what is one of the most important requirements?

- a) Work quickly and with little testing
- b) Use poor protection tools to increase flexibility
- c) Ensure the working environment is always clean and has enough light
- d) No need to check electrical connections after connection

Question 10: What do labor safety regulations in electronics assembly require regarding the use of protective equipment?

- a) Only use when working with potentially harmful parts.
- b) Ensure that all protective equipment such as gloves, goggles, and anti-static clothing are fully used.
- c) Protective equipment is not required if there is no obvious hazard.
- d) Protective equipment may be used only in emergency situations.

Question 11: While working, workers can omit some of the contents of the safe working process to perform the job faster.

- a) True
- b) False

Question 12: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, c) are correct
- g) All five (a, b, c, d, e) are correct

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 14: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

Question 15: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current workers and newly recruited employees
- b) Apprentices and trainees
- c) Probationary workers and freelance workers hired by the facility
- d) Both (a) and (b) are correct
- e) Both (a) and (c) are correct
- f) All three (a, b, and c) are correct

Question 16: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 18: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 19: Causes of injury when using hand-held primitive tools

- a) Using damaged tools or tools lacking safety equipment
- b) Using it for purposes other than its intended purpose
- c) Improper operation and use
- d) Both (a) and (b) are correct
- e) All three (a, b, c) are correct

Question 20: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above
