

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: What is the main cause of occupational accidents when operating sawdust and wood shavings grinders?

- a) Lack of effective dust extraction system
- b) Improper use of machinery
- c) Lack of personal protective equipment
- d) Working environment with insufficient light

Question 2: During the operation of a tablet press, which factor does not cause the risk of occupational accidents?

- a) Contact with moving parts of the machine
- b) High temperature during pressing
- c) Excessive pressure in the machine
- d) Clean and tidy working environment

Question 3: To minimize the risk of occupational accidents due to sawdust dust, what measures are necessary?

- a) Wear a mask and protective gloves
- b) Working in an environment without light
- c) Limit the use of dust extraction systems
- d) No eye protection required

Question 4: What is one of the causes of occupational accidents when operating a tablet press?

- a) Workers are not adequately trained
- b) Working hours are too long
- c) Unstable power source
- d) The press is not regularly maintained

Question 5: Which of the following measures is not a measure to prevent occupational accidents when operating a sawdust grinder?

- a) Ensure workers wear adequate protective equipment
- b) Train workers on safety procedures
- c) Periodic inspection and maintenance of the crusher
- d) Increase working time to improve productivity

Question 6: When an occupational accident occurs, what is the first step a worker needs to take?

- a) Provide information to the medical team
- b) Immediately stop the machine and activate the alarm system
- c) Continue working until the situation stabilizes
- d) Try to treat the wound yourself

Question 7: Which of the following is an important factor in preventing occupational accidents related to tablet presses?

- a) Ensure the press always operates at high pressure and temperature
- b) Perform periodic maintenance and inspection of machinery
- c) Choosing input materials that are not of good quality
- d) Ensure that no protective equipment is present during operation

Question 8: Labor safety regulations when operating sawdust and wood shavings grinders require workers to

- a) Use only protective gloves without goggles
- b) Ensure adequate use of personal protective equipment such as gloves, goggles and masks
- c) No need for regular crusher maintenance
- d) Make sure to work only in a dust-free environment

Question 9: Which of the following is an important factor in preventing occupational accidents related to tablet presses?

- a) Accumulation of fine dust from raw materials
- b) The use of flammable liquids in the manufacturing process
- c) Lack of workers to supervise the production process
- d) Protective equipment is not working effectively

Question 10: According to regulations, what training do workers need to receive to minimize risks when operating tablet presses?

- a) Emergency handling and rescue skills
- b) How to choose suitable ingredients
- c) How to maintain the ventilation system
- d) Teamwork skills in a production environment

Question 11: While working, workers can omit some of the contents of the safe working process to perform the job faster.

- a) True
- b) False

Question 12: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, c) are correct
- g) All five (a, b, c, d, e) are correct

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 14: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

Question 15: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current workers and newly recruited employees
- b) Apprentices and trainees
- c) Probationary workers and freelance workers hired by the facility
- d) Both (a) and (b) are correct
- e) Both (a) and (c) are correct
- f) All three (a, b, and c) are correct

Question 16: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.
