

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

**Please circle one (01) correct answer.**

**Question 1:** In the process of attaching the speaker membrane to the frame, what is the most important factor to ensure the sound quality of the speaker?

- a) Durability of the speaker membrane
- b) Accuracy in mounting the speaker membrane
- c) Type of glue used
- d) Speaker frame dimensions

**Question 2:** Which of the following is the main cause of occupational accidents when assembling and connecting speaker parts?

- a) Improper use of glue
- b) Lack of precision in the assembly of components
- c) Poorly lit working environment
- d) Substandard speaker membrane material

**Question 3:** To minimize the risk of electric shock accidents during speaker assembly, which of the following actions should workers take?

- a) Ensure all electrical connections are thoroughly checked before use.
- b) Use protective equipment such as electrical gloves
- c) Completely cut off the power supply after every working hour
- d) Avoid using long power cords

**Question 4:** Which of the following measures is necessary to prevent accidents when attaching the speaker membrane to the frame?

- a) Ensure that workers do not need to use gloves
- b) Regularly check and maintain tools and machinery
- c) Remove all personal protective equipment
- d) Use plastic instead of lightweight materials like paper

**Question 5:** In case of an occupational accident due to electric shock while assembling speakers, what should the worker do immediately?

- a) Continue working so as not to interrupt the process
- b) Cut off the power and call emergency services

- c) Clean the electrical contact area with water.
- d) Take the victim to a medical facility immediately.

**Question 6:** When assembling speakers, what factors can cause muscle or spinal injury?

- a) Using inappropriate tools
- b) Improper lifting and moving of large speaker parts
- c) Not checking the power before connecting
- d) Using unsafe glue

**Question 7:** What does the safety procedure in speaker assembly require workers to do before starting work?

- a) Read the job instructions
- b) Review your colleagues' work processes
- c) Fully equipped with personal protective equipment such as gloves, goggles and safety shoes
- d) Discuss how to optimize workflows

**Question 8:** One of the causes of occupational accidents when assembling and connecting speaker parts is due to

- a) Failure to comply with equipment inspection and maintenance procedures
- b) Workers lack lifting techniques
- c) Ensure hygiene in the working area
- d) Using inappropriate protective tools

**Question 9:** What measures help minimize muscle injuries when working with large speaker parts?

- a) Use lifting aids such as machinery or precision attachments
- b) Perform heavy lifting without assistance equipment
- c) Minimize the use of personal protective equipment
- d) Reduce the number of speaker parts that need to be lifted

**Question 10:** Which of the following regulations is mandatory when working with electrically connected speaker components?

- a) Ensure that no electrical protection tools are used during the work.
- b) Turn off the power and recheck all connections before continuing work.
- c) Only use used machinery without periodic inspection
- d) Working directly with electricity without protection

**Question 11:** What is the purpose of occupational safety and hygiene?

- a) Ensure safety for workers, minimize or prevent accidents, injuries or deaths at work.

- b) Ensure that workers are healthy and do not suffer from occupational diseases or other illnesses caused by poor working conditions.
- c) Maintain, restore health and prolong working time for workers.
- d) All three (a, b, and c) are correct

**Question 12:** According to the Law on Labor Safety and Hygiene, how many obligations do employees have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 13:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of Minimum Wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

**Question 14:** Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
