

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: What does casting and shaping work require in the production of sports equipment?

- a) High precision and care
- b) Graphic design skills
- c) CNC machine programming skills
- d) Only basic techniques required, no experience required

Question 2: What is one of the most common hazards in surface treatment?

- a) Burns due to contact with chemicals
- b) Lack of protective equipment
- c) Dust contamination from molds
- d) Lighting problems

Question 3: In the casting process, the raw material is usually heated to what state?

- a) Gaseous form
- b) Solid form
- c) Liquid or plastic form
- d) Powder form

Question 4: What is the common cause of work accidents when sanding?

- a) Contact with cleaning chemicals
- b) Dust and debris flying into the eyes
- c) Heat leakage from the furnace
- d) Substandard raw materials

Question 5: What are the accident prevention measures in surface treatment?

- a) Use protective eyewear and effective ventilation systems
- b) No need for regular equipment maintenance
- c) Working in low light environments
- d) Using strong chemicals without protection

Question 6: When dealing with a burn emergency, what is the first step to take?

- a) Wash the burn area under clean water
- b) Bandage immediately
- c) Use oils to soothe the skin
- d) Wait for the medical team to arrive without doing anything

Question 7: During the casting process, why must time and temperature be strictly controlled?

- a) To save energy
- b) To prevent the ingredients from freezing evenly
- c) To ensure that there are no defects in the product
- d) To increase the pressure in the mold

Question 8: Which of the following factors is the main cause of accidents during surface treatment?

- a) Improper use of mechanical equipment
- b) Working in a space that is too bright
- c) Surface treatment process is too fast
- d) Not using the right paint color

Question 9: What is the purpose of sanding tools?

- a) Increase product brightness
- b) Flatten or soften the surface
- c) Increase the durability of the coating chemicals
- d) Create color for the product surface

Question 10: What does the occupational safety process require workers to?

- a) Fully trained in operating procedures and use of personal protective equipment
- b) Work at a fast pace to complete the product
- c) No need to periodically check working equipment
- d) Focus on output rather than safety

Question 11: While working, workers can omit some of the contents of the safe working process to perform the job faster.

- a) True
- b) False

Question 12: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures

- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, c) are correct
- g) All five (a, b, c, d, e) are correct

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 14: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

Question 15: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current workers and newly recruited employees
- b) Apprentices and trainees
- c) Probationary workers and freelance workers hired by the facility
- d) Both (a) and (b) are correct
- e) Both (a) and (c) are correct
- f) All three (a, b, and c) are correct

Question 16: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 18: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 19: Causes of injury when using hand-held primitive tools

- a) Using damaged tools or tools lacking safety equipment
- b) Using it for purposes other than its intended purpose
- c) Improper operation and use
- d) Both (a) and (b) are correct
- e) All three (a, b, c) are correct

Question 20: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above
