

NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: During the assembly of telescope components, which occupational accident often occurs due to contact with sharp tools or mechanical parts?

- a) Electric shock injury
- b) Burns from contact with hot machinery
- c) Cuts or fractures caused by contact with sharp lenses, mirrors, or mechanical parts
- d) Muscle fatigue and back pain

Question 2: What is the main cause of occupational accidents during optical inspection and calibration?

- a) Lack of personal protective equipment
- b) Lack of worker training and skills
- c) Using inappropriate machinery
- d) Strong light from optical devices

Question 3: During the assembly of telescope components, what is one of the necessary safety measures to avoid accidents?

- a) Use only manual tools
- b) Arrange the working environment neatly and reasonably
- c) Working continuously without rest
- d) Let the tool self-test before use

Question 4: When checking and calibrating optics, what accidents can occur due to unstable equipment or tools?

- a) Electrical failure
- b) Burns caused by high temperature
- c) Accidents due to failure of machinery or optical instruments
- d) Eye strain and headaches

Question 5: Which of the following measures is important to minimize accidents when assembling telescope components?

- a) Using tools and equipment that do not require periodic inspection
- b) Thoroughly train workers on assembly processes
- c) Working in low light environments
- d) Doing work quickly without paying attention to safety

Question 6: Which of the following is not a major factor in causing accidents during optical inspection and calibration?

- a) Lack of attention or fatigue of workers
- b) Failure to comply with safety procedures
- c) Use personal protective equipment properly
- d) Disorganized or poorly lit work environment

Question 7: In case of a work accident during telescope assembly, what is the first action that the worker should take?

- a) Continue working without interruption
- b) Immediately notify the occupational safety department
- c) Evaluate and adjust equipment immediately
- d) Stop work and notify colleagues and managers of the incident

Question 8: Which of the following measures is necessary to protect workers from accidents when working with sharp lenses and mirrors during optical inspection?

- a) Wear cut-resistant gloves and eye protection
- b) Working in low light conditions
- c) Do the job quickly to save time
- d) Let the tool self-test before use

Question 9: What safety procedures are required during the assembly of telescope components to avoid accidents?

- a) Use only old tools and equipment
- b) Train workers on potential hazards and prevention methods
- c) No maintenance required for tools and equipment
- d) Ensure the working environment is always full of direct sunlight

Question 10: When a work accident occurs during optical inspection and calibration, what is the first step the worker should take?

- a) Use the repair tool immediately
- b) Stop work and provide first aid to the victim
- c) Continue working so as not to interrupt work
- d) Review the workflow and continue

Question 11: According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours

- b) 24 hours
- c) 30 hours
- d) 48 hours

Question 12: Employees who work continuously for 8 hours or 6 hours according to the provisions of the 2020 Labor Code are entitled to a break of at least how many minutes, counted as working hours?

- a) 20 minutes
- b) 30 minutes
- c) 40 minutes
- d) 50 minutes

Question 13: The elements that make up a normal flame are?

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct.
- e) All three (a, b, c) are correct.

Question 14: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Please indicate the correct and complete answer about the conditions for employees to enjoy in-kind compensation?

- a) Doing jobs and occupations in the list of especially arduous, toxic, dangerous jobs and arduous, toxic, dangerous jobs and occupations issued by the Ministry of Labor - Invalids and Social Affairs
- b) Working in a working environment with at least one of the hazardous or toxic factors that do not meet the hygiene standards permitted by the Ministry of Health or are in direct contact with sources of infectious diseases
- c) Both of the above

Question 17: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 18: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Employed people, newly recruited people
- b) Apprentices and trainees
- c) Probationers and freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

Question 20: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False
