

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

**Question 1:** In the display screen manufacturing process, which stage requires high precision and sophisticated techniques?

- a) Prepare ingredients
- b) Assembling the screen
- c) Quality control
- d) Product transportation

**Question 2:** Which accident is the main risk in the production of LCD or OLED display screens?

- a) Chemical accidents
- b) Accidents due to voltage and temperature
- c) Mechanical accidents
- d) All three (a, b, and c) are correct

**Question 3:** The use of special materials such as liquid crystal (LCD) or organic light-emitting diode (OLED) can cause occupational accidents due to:

- a) Not enough light
- b) Poor quality materials
- c) Improper handling procedures
- d) Machinery not maintained

**Question 4:** One of the important measures to prevent accidents during the screen production process is

- a) Train employees on safety procedures
- b) Increase production
- c) Reduce the number of employees
- d) Use of fragile materials

**Question 5:** In the mechanical assembly process, one of the causes of work accidents is

- a) Lack of attention and concentration
- b) Lack of skills in using mechanical tools
- c) Unsafe working environment
- d) All of the above

**Question 6:** Which of the following measures is not a measure to prevent accidents during mechanical assembly?

- a) Training and guidance on safety procedures
- b) Create a clean, airy working environment
- c) Eliminate potential hazards
- d) Not using personal protective equipment

**Question 7:** To ensure labor safety during mechanical assembly, which regulations must be followed?

- a) Use personal protective equipment
- b) No equipment maintenance required
- c) Use any available tools
- d) No need to monitor the work environment

**Question 8:** In case of a work accident, what is the first step to take?

- a) Investigate the cause of the accident
- b) Activate the alarm system and call for help
- c) Remove employees from the work area
- d) Damage handling

**Question 9:** What is the main cause of accidents when working with mechanical machinery during assembly?

- a) Not enough light
- b) Failure to properly maintain equipment
- c) Failure to comply with safety procedures
- d) Working environment without space

**Question 10:** One of the accident prevention measures during screen quality testing is

- a) Using high voltage without safety measures
- b) Ensure safety when measuring brightness and contrast
- c) Letting employees work without protection
- d) Quality control without following the process

**Question 11:** While working, workers can omit some of the contents of the safe working process to perform the job faster.

- a) True
- b) False

**Question 12:** Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, c) are correct
- g) All five (a, b, c, d, e) are correct

**Question 13:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract.

**Question 14:** According to the provisions of Decree 44/2016/ND-CP dated May 15, 2016 of the Government, workers with strict requirements on occupational safety (group 3) must receive at least how many hours of initial periodic training?

- a) 16 hours
- b) 24 hours
- c) 30 hours
- d) 48 hours

**Question 15:** Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current workers and newly recruited employees
- b) Apprentices and trainees
- c) Probationary workers and freelance workers hired by the facility
- d) Both (a) and (b) are correct
- e) Both (a) and (c) are correct
- f) All three (a, b, and c) are correct

**Question 16:** What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

**Question 17:** According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 18:** Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

**Question 19:** Causes of injury when using hand-held primitive tools

- a) Using damaged tools or tools lacking safety equipment
- b) Using it for purposes other than its intended purpose
- c) Improper operation and use
- d) Both (a) and (b) are correct
- e) All three (a, b, c) are correct

**Question 20:** Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above
