

## NAM VIET OCCUPATIONAL SAFETY TRAINING AND ENVIRONMENTAL MONITORING CO., LTD.

Full name:

Year of birth:

Company:

**Please circle one (01) correct answer.**

**Question 1:** During the process of assembling circuit boards, what is the main cause of workplace accidents?

- a) The inspection process was not done properly
- b) Using tools that are not properly maintained
- c) Lack of lighting in the work area
- d) Assembling circuit boards in a large space

**Question 2:** Why is quality control testing necessary after circuit board assembly?

- a) To minimize the number of defective products
- b) To ensure the circuit board is not contaminated
- c) To confirm that all connections have been made correctly
- d) To ensure there is no dust or dirt on the circuit board

**Question 3:** Which of the following factors can cause electrical accidents during circuit board assembly?

- a) Incorrectly connecting electronic components
- b) Lack of component durability testing
- c) The electrical circuits are not completely isolated
- d) Assembling circuit boards in poorly ventilated spaces

**Question 4:** During the assembly of batteries and antennas, which factors can cause workplace accidents?

- a) Incorrect antenna installation
- b) Lack of assembly tools
- c) Protective equipment is of insufficient quality
- d) The work area is too large

**Question 5:** What is the most important safety measure when assembling batteries and antennas?

- a) Reduce working hours
- b) Conduct regular quality checks
- c) Ensure workers get adequate rest
- d) Using old and used tools

**Question 6:** Which of the following factors can cause workplace accidents during battery and antenna assembly?

- a) Lack of assembly skills
- b) Workers have not received safety training
- c) Using inappropriate protective equipment
- d) All of the above

**Question 7:** What should workers do to minimize the risk of injury while assembling circuit boards?

- a) Perform stretching exercises and change your working posture.
- b) Work faster to complete the task.
- c) No need to thoroughly check the connections after completion.
- d) Using tools that are not regularly maintained.

**Question 8:** What is one of the important factors in preventing workplace accidents when assembling batteries and antennas?

- a) Ensure the work area is always clean and well-lit.
- b) Working continuously without rest.
- c) No need to check the tools before use.
- d) Using inadequate protective equipment.

**Question 9:** When an electric shock accident occurs during circuit board assembly, what should the worker do first?

- a) Call medical services immediately.
- b) Stop working and turn off the power immediately.
- c) Check the victim's condition before turning off the power.
- d) Remove the victim from the area without dealing with the electrical device.

**Question 10:** What equipment do workers need to ensure safety during circuit board assembly?

- a) Safety glasses and gloves
- b) Gloves only
- c) Safety glasses only
- d) No protective equipment required

**Question 11:** Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

**Question 12:** The elements that make up a normal flame are

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct
- e) All three (a, b, c) are correct

**Question 13:** When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract

**Question 14:** When suffering from an occupational disease with a 40% reduction in working capacity due to the fault of the employer, what benefits will the employee receive if the employer does not pay unemployment insurance and occupational disease insurance?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits

**Question 15:** Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

**Question 16:** Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, and c) are correct
- g) All five (a, b, c, d, and e) are correct

**Question 17:** According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.

- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

**Question 18:** What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

**Question 19:** Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current employees, newly recruited employees
- b) Apprentices and trainees
- c) Probationary employees, freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

**Question 20:** While working, workers can omit some of the contents of the safe working process to do the job faster.

- e) True
- f) False
