Full name:

Year of birth:

Company:

Please circle one (01) correct answer.

Question 1: During drilling and punching, which of the following is one of the main causes of work accidents?

- a) Not checking the tool periodically
- b) Lack of skills in using drilling machines
- c) Lack of personal protective equipment
- d) Using improper drilling materials

Question 2: Which of the following measures is necessary to minimize the risk of occupational accidents during mechanical assembly?

- a) Ensure the work area is clean and well-ventilated
- b) Using tools and equipment that do not require periodic inspection
- c) Avoid using personal protective equipment
- d) Leaving the assembly in a disorganized environment

Question 3: What types of accidents can occur during drilling and punching?

- a) Injuries due to contact with heavy mechanical parts
- b) Getting debris in the eye
- c) Poisoning due to exhaust gas from drilling machines
- d) Infection due to contact with machine oil

Question 4: The mechanical assembly process requires workers to perform work with which of the following requirements?

- a) Quick assembly without checking the parts
- b) Inspect parts only after assembly is complete
- c) Ensure that mechanical components are securely and properly mounted
- d) Assembly without having to check the tool before use

Question 5: Which of the following causes contributes to causing occupational accidents during mechanical assembly?

- a) Workers are fully trained in assembly techniques
- b) Failure to use personal protective equipment and tools properly
- c) Assemble the components according to the technical instructions
- d) The working environment is maintained clean and tidy.

Question 6: What activities are included in measures to prevent occupational accidents during drilling and punching?

- a) Ensure that the drill is not regularly maintained
- b) Install effective dust extraction and ventilation systems
- c) Working without using personal protective equipment
- d) Increase drilling speed to reduce working time

Question 7: What do safety regulations for drilling and punching require workers to do before starting work?

- a) Check the technical operation of the drilling machine
- b) Choose maintenance-free tools
- c) Ignoring personal protective measures because they are not necessary
- d) Start drilling immediately without checking the work area

Question 8: Which of the following safety measures helps reduce the risk of occupational accidents when workers work with heavy mechanical parts?

- a) Do not use lifting equipment
- b) Use durable tools and equipment
- c) Perform proper lifting and moving techniques
- d) Leave mechanical parts on the floor without support

Question 9: What is one of the important measures to prevent occupational accidents during drilling and punching?

- a) Not checking tools after use
- b) Ensure a clean and well-organized working environment
- c) Using tools that are not suitable for the type of work
- d) Only use a damaged tool if necessary

Question 10: When a work accident occurs during mechanical assembly, what is the first thing to do?

- a) Continue work if the accident is not serious
- b) Immediately stop the activity and check the victim's condition
- c) Move the victim away from the work area immediately
- d) Carry out tool maintenance immediately

Question 11: Employees have the right to refuse to do work or leave the workplace while still receiving full pay and not being considered as violating labor discipline when they clearly see a risk of a work accident that seriously threatens their life and health and must immediately report to the person directly in charge, true or false?

- a) True
- b) False

Question 12: The elements that make up a normal flame are

- a) Oxygen
- b) Combustible
- c) Heat source
- d) Both (a and b) are correct
- e) All three (a, b, c) are correct

Question 13: When a worker has a work accident caused by the Employer's fault and his/her working capacity is reduced by 81%, how much compensation will he/she receive?

- a) 30 Months of minimum wage
- b) 30 Months of Social Insurance Salary
- c) 30 months salary according to labor contract

Question 14: When suffering from an occupational disease with a 40% reduction in working capacity due to the fault of the employer, what benefits will the employee receive if the employer does not pay unemployment insurance and occupational disease insurance?

- a) Monthly allowance
- b) One-time subsidy
- c) Not entitled to benefits

Question 15: Equip yourself with adequate personal protective equipment to

- a) Preventing work accidents
- b) Preventing occupational diseases
- c) Both of the above

Question 16: Fire prevention and fighting measures are

- a) Propaganda and education measures
- b) Technical measures
- c) Administrative and legal measures
- d) Measures to choose fire-resistant or non-fireproof materials right from the design of the constructions
- e) Measures for periodic inspection, maintenance and repair of machinery
- f) All three (a, b, and c) are correct
- g) All five (a, b, c, d, and e) are correct

Question 17: According to the Law on Labor Safety and Hygiene, how many obligations do workers have?

- a) 1 obligation.
- b) 2 obligations.
- c) 3 obligations.
- d) 4 obligations.

Question 18: What will workers get when they have occupational diseases?

- a) Treatment and leave from work.
- b) Treatment until recovery and return to old job.
- c) Treatment until recovery and reassignment to work suitable to health.
- d) Provide financial assistance and help find another job.

Question 19: Which of the following subjects are required to receive occupational safety and hygiene training?

- a) Current employees, newly recruited employees
- b) Apprentices and trainees
- c) Probationary employees, freelance workers hired by the establishment
- d) Both (a and b) are correct.
- e) Both (a, c) are correct.
- f) All three (a, b, c) are correct.

Question 20: While working, workers can omit some of the contents of the safe working process to do the job faster.

- e) True
- f) False
